Destini expands rail unit's services

BY EMIR ZAINUL

KUALA LUMPUR: Destini Bhd has expanded its future service offerings to include providing total engineering solutions and services, civil works, rolling stock, project and asset management and maintenance services for rail and track transportation projects in Malaysia.

In a filing with Bursa Malaysia yesterday, Destini said its whol-

ly-owned subsidiary Destini Rail Sdn Bhd, last Friday, incorporated a new wholly-owned subsidiary DLP Rail Sdn Bhd for the purpose.

DLP Rail is now an indirect wholly-owned subsidiary of Destini. Destini said DLP Rail principally carries on rail construction, track works, systems and communications. The entire issued share capital of DLP Rail is RM100,000 comprising 100,000 ordinary shares, wholly owned by Destini Rail.
