## **Destini Wins RM17.4m Electrical Work Contract**

KUALA LUMPUR: Destini Bhd has secured a sub-contract worth RM17.4mil for electrical installation work at GrenePark Village commercial development in Semenyih.

The mechanical and electrical (M&E) contract was awarded by a unit of VIZIONE HOLDINGS BHD.

"Destini's management is of the view that this contract is a significant milestone for Destini Engineering Technologies Sdn Bhd (DET), where DET has been developing its in-house M&E capabilities and has been providing its service to various Government agencies," it said in a statement today.

"This also allows Destini to increase its revenue stream from the commercial sector."

Destini said the company aims to actively participate in M&E related tenders for both Government and commercial sectors.
