Destini appoints new managing director

PETALING JAYA: Datuk Seri Shahril Mokhtar, who was appointed as Destini Bhd's executive director last month, has now been redesignated as the company's group managing director.

Prior to joining integrated engineering solutions provider Destini, Shahril had served as group managing director of Prasarana Malaysia Bhd. He was also the chief executive officer of Mass Rapid Transit Corp Sdn Bhd before.

In a statement last December, Destini said Shahril's appointment as executive director then was expected to strengthen its capabilities and position within the rail sector, which was expected to be a key contributor to the group's future revenue and profits.
